Dear Sir:

In response to the Office Action dated September 11, 2002, please amend the above-identified U.S. patent application as follows:

In the Claims

Please amend the claims as follows (A marked-up version of the amended claims is attached):

1. (Amended) A connector assembly for a radio frequency (RF) signal comprising:

a body;

a flange connected to the body and having a cavity; and

an RF interconnect structure including a plurality of pins extending from the flange,

wherein the cavity of the flange receives a chip carrier and the pins contact the chip

carrier.
